Bajaj Institute Of Technology

In collaboration with

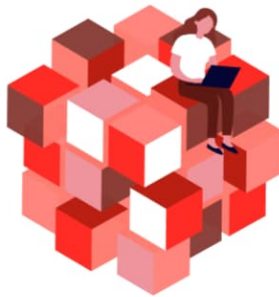

Computer Engineering Department

BIT-HON (Internal Hackathon)

About BIT-HON

Participants will be given a list of domains from which they must choose one and come up with a solution to an issue in that domain. They will be given a time limit of **36 hours** to finish this work, they do not need to code or come up with the technical part, instead, they may present their concept using a Powerpoint. It's up to them if they want to code and come up with the technical aspects as well.

What is SIH?

A **hackathon** is an exciting competition and a vibrant social event that unites computer programmers and other enthusiastic individuals, **fostering collaborative thinking** and **inspiring creative solutions** for real-world challenges presented by various sectors of the Indian Government. The aim is to enhance existing software programs or create innovative new ones to drive positive change and progress.

Those participating in a hackathon will work with like-minded individuals to **utilize new technologies** and **hack together** tons of solutions from different sources to achieve the goal.

Why sponsor us?

- Largest and best engineering college in Wardha
- **500+ students** participating in event
- **1K+ followers** on LinkedIn
- **Largest infrastructure** with a 97 cr. investment for students' facility
- **6+ teams winners** in SIH 2022
- **30+ teams** participated in SIH last year, and **50+ teams** will participate this year

Attendee Persona.

Student Interest

- Web development
- App development
- Blockchain
- AI/ML
- Startup
- EdTech
- DSA

Aspiration

- 40+ LPA
- Reputed Company
- High Profile Job
- Startups

Background

- Computer Engineering
- Electrical Engineering
- Mechanical Engineering
- Civil Engineering
